

CLEVER CREATIONS

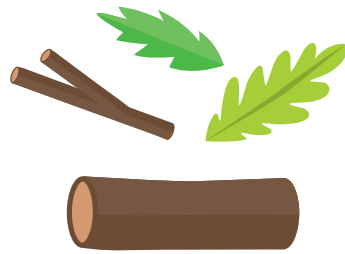

Build a den

See if you can build a den without it collapsing!

You could use:

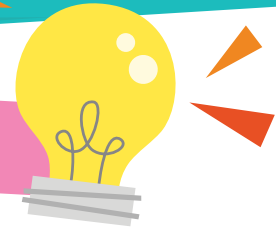

Cushions, sheets and chairs
(indoor den)

Small logs, branches and leaves
(outdoor den)

Kit's Tips:

- ✓ Start with a solid foundation! It could be a chair or a tree.
- ✓ Cover your structure so rain can't get in (or people can't spy on you)!
- ✓ Lean items against each other to create a stronger structure.
- ✓ Always tidy up after yourself!

What does your den look like?
