

# LEAFY AUTUMN ANIMALS

## WHAT YOU NEED

Glue stick

A4 paper

Scissors

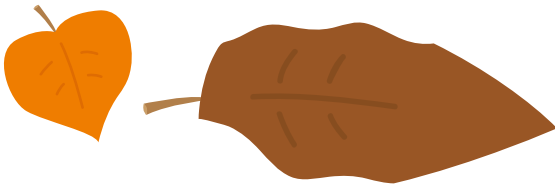

Leaves and twigs

Autumn walks are the best! Wrap up warm and go out to explore the glorious autumnal colours. As you walk, collect different sizes of leaves, twigs and nuts. When you get home play with collaging different shapes and colours to make animals, insects and faces. We used orange and brown autumn leaves to make a fox.

## REMEMBER

Glue down new pieces at each stage, after experimenting and choosing the right leaf to use. Try not to pick anything off of live plants and trees!

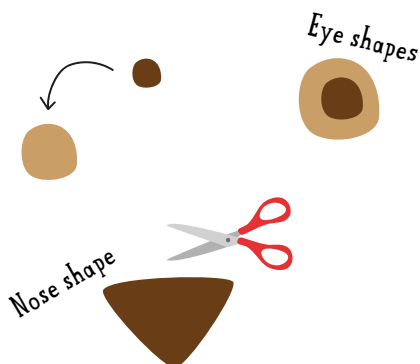

**1** Choose a big leaf to be your fox's body, and a smaller one for the head.

**2** Add smaller leaves for ears and a tail. Then snap smaller twigs to make legs.

**3** Cut pieces from leaves to add eyes and a nose.

WELL  
DONE!
